Hi Brock,

I'm intending to stay for the this, though I truly wish I could have caught the 6 PM flight back to Seattle. I looked at the agenda for the public workshop and saw that it ended at 2:30. I was wondering if we could have the meeting from 2:30 to 4? That would enable me to get home. I realize this is my individual request, and having all of these folks together is a rare and valuable opportunity brought about after expenditure of considerable expense, but I'm wondering if other individuals might not want to get back to their homes a bit earlier.

Regards,

Lon
